---> Comment Text :

1 Take it from someone who lives in an earthquake active area, this idea of nuclear
2 waste at Yucca Mountain is pure insanity. Is nuclear power and the dirty waste it
produces really worth it? Worth it to our kids and grandkids? We have other forms of
energy just begging to be used. And they're clean! Is it all about money? Or is there
any common sense left in America? I don't think so.

Sincerely, Michael W. Miller
